I am a research scientist at the Beijing Academy of Artificial Intelligence (BAAI), working with Prof. Zongqing Lu. I received both my PhD and bachelor degrees from Renmin University of China in 2023 and 2018, respectively, under the supervision of Prof. Qin Jin. My research interests focus on human behavior learning, human motion understanding, vision-and-language pretraining, and embodied artificial intelligence. Currently, I am working on developing general-purpose embodied agents, including game agents and humanoid robots.
